

THE COTTAGE AT GRAYSTONE QUARRY

The Cottage at Graystone Quarry is the perfect home base for your group of up to 11 guests in 3 bedrooms & baths, plus a bunkroom – your wedding party, concert buddies, family, romantic wedding night, exploring the area, small reunion of friends or an offsite with business associates. Close to everything - but away from it all.

Graystone Quarry is a beautiful reclaimed Limestone rock quarry used to build Highway 65 in the early 1960s. The quarry was abandoned for 50 years and when purchased in 2014, held 900 tons of junk, which was mostly reused and recycled before becoming the amazing Event & Concert Venue.

Over the river and through the woods. Up through a canopy of heritage trees on the northwest side of Graystone Quarry's private 160 acre property, you'll find a dreamy hilltop whitewashed log cottage. About 2800 square feet, the cottage sleeps 11 in 4 bedrooms with a finished walk-out basement.

The 2nd story has 2 bedrooms with queen beds and a full bathroom. A loft reading nook overlooks the living area. The first floor master bedroom has a king size bed, a full bathroom, open concept eat-in kitchen and bar, plus great room with 2 story quarry stone fireplace and television. In the basement, you'll find 5 twin XL beds, television, a full bath, kitchen, laundry room, game room and a second reading nook. Two covered porches are perfect hang out spaces for enjoying some relaxing rocking in chairs or the porch swing, or sit around the outdoor firepit.

Located conveniently near the intersection of HWYs 65 & 840 on the border of Franklin and Thompson's Station, Tennessee, The Cabin is about 30 minutes from downtown Nashville. If attending an event at Graystone Quarry or FirstBank Amphitheater, or simply exploring Franklin, Thompson's Station, Columbia & the Nashville area, this charming, private cottage will be a memorable part of your trip.
